RackSEAL-Floor

Features & Benefits

- ✓ **RackSEAL-Floor** can be easily sized to seal cable cutouts in raised access floors.
- ✓ Can also be used to seal other gaps in the floor, between rack rails and rack sides or between racks.
- ✓ Perforated into 1" x 1" squares allowing foam to be sized or shaped to the required opening.
- ✓ Fire retardant meeting **UL-94-HF-1** rating.
- ✓ Easy, flexible & cost effective way to seal cable openings.
- ✓ Supplied as single sheets.

Saves Energy!

RackSEAL-Floor prevents hot and cold air leakage that reduces data center cooling efficiency.!

Seals Gaps in Seconds!

RackSEAL-Floor is flexible foam that seals air gaps of any shape and size. !

Beats Brush Grommets!

RackSEAL-Floor seals gaps better than expensive brush grommets at a fraction of the cost.!

Fire-Safe and Long-Life!

RackSEAL-Floor is fire retardant, meets UL-94-HF-1 rating and is physically stable so it retains structural integrity over time.!

No Tools, No Measuring!

RackSEAL-Floor is perforated every inch so you can tear the perfect size to fit any gap you're filling!

Part Number:	**3R49PD246 – 1 pack**
Material:	**Plain expanded Polyurethane Polyester foam die cut sheets**
Rating:	**Open cell to UL94 HF1 flame retardancy**
Density:	**30Kgs/m³**
Size:	**600x600mm x 50mm thick, with 25x25mm perforations**
Colour:	**Grey**
